GENERAL QUOTATIONS
OF
BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue*. As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method, and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter *"f"* is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

3. The letter *"f"* prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

4. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are now "and interest" except where marked "f" and income and defaulted bonds.

STREET AND ELECTRIC RAILWAYS

In quoting street and electric railway bonds, we employ the same method as in quoting the bonds of steam railroads. The great majority of issues being quoted "and interest," we use no designating mark whatever where that is the case. On the other hand, we prefix the letter "*f*" where there is a deviation from this rule; in such cases the interest forms part of the price. Unless, therefore, "*f*" appears against a quotation, the buyer will understand that the accrued interest is to be added on. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where marked "f," and income and defaulted bonds.

d Price per share, not per cent. *k* Last sale. *n* Nominal. *s* Sale price. *x* Ex-dividend. *y* Ex-rights.

MISCELLANEOUS SECURITIES.

Quotations marked "*f*" indicate that accrued interest is included in the price. Prices not marked are "and interest" that is, purchaser has to pay accrued interest in addition to the price. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where marked "f" and income and defaulted bonds.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrue interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*f*).

The figures in the column *"to net"* indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

Bonds	Bid.	Ask.	To Net.

f Flat price. *b* Basis. Stamped 2½% until Dec. 1 1906. *n* Nominal.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the *closing day of the month preceding the date of issue*, though often are nominal. An asterisk (*) denotes sales. The letter (*h*) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

Where Names are Printed in Italics Fuller Returns may be Found in the Advertising Columns

REVIEW OF APRIL.

In any enumeration of the important events of the month of April, foremost place must, of course, be assigned to the disaster to the White Star ocean liner "Titanic". This has been correctly termed the greatest of sea tragedies, inasmuch as the history of ocean navigation furnishes no parallel to it in the enormity of the loss of life sustained. The disaster was so sudden and unexpected, and so overwhelming in its sad features, and involved the sacrifice of so many men of prominence, that in the week of its occurrence it caused a sensible pause in the business life of the community.

The "Titanic" was on her maiden voyage and had left Southampton on Wednesday, April 10. She was the newest, the largest and the most sumptuous ship afloat, and carried a full list of passengers, comprising many persons well known on both sides of the Atlantic. On Sunday evening, April 14, at about 10:30 p. m. (New York time), she struck an iceberg off the Grand Banks of Newfoundland and sank at about 2:20 o'clock Monday morning. She carried about 1,400 passengers, together with a crew of 940, and of this number only 705 were saved, including 202 first-class passengers, 115 second-class and 178 third-class, with 210 officers and crew. The steamer "Carpathia" of the Cunard line answered the wireless call for help, but arrived after the "Titanic" had foundered. She picked up all of the "Titanic's" passengers who had taken to the life-boats. The survivors were brought direct to New York (the "Carpathia", though bound for the Mediterranean, having reversed her course when going to the rescue of the "Titanic"), arriving in this city Thursday evening, April 18, at 9:30 o'clock. The usual rule of saving women and children first was followed and, as a consequence, most of the survivors were women, together with the men necessary to man the life-boats, of which latter there were only enough to save about one-third of the passengers.

Among the well-known persons who went down with the ship were John B. Thayer, 2nd Vice-President of the Pennsylvania Railroad; Charles M. Hays President of the Grand Trunk Railway; Isidor Straus, a partner in the firm of R. H. Macy & Co. and Abraham & Straus; George D. Widener, a son of P. A. B. Widener, the traction magnate of Philadelphia; Major Archibald Butt, President Taft's military aide; Benjamin Guggenheim, President of the International Steam Pump Co., John Jacob Astor, and W. T. Stead, Editor of the London "Review of Reviews." A Congressional committee began an immediate inquiry into the disaster and a sub-committee of three mem-

bers of this committee went to meet the "Carpathia" upon her arrival. This haste was owing to the prevalence of rumors that J. Bruce Ismay, Managing Director of the White Star Line, who had been on the "Titanic" and who was one of the survivors, intended leaving immediately for Europe. It was also desired to serve subpoenas upon members of the crew and others before they had a chance to return to the other side. The cable ship "Mackay-Bennett" was sent out to search for bodies of the victims of the disaster and was able to recover 306, of which 190 were brought to Halifax on April 30, the remainder being buried at sea, mainly because it was impossible to identify the bodies.

In the political world the developments were of great importance. In several leading States primary elections were held for the selection of delegates to the National Republican Convention for the nomination of candidates for President and Vice-President, and in these Mr. Roosevelt developed unlooked for strength. In New York, President Taft succeeded in getting most of the delegates, as expected, but in Illinois Mr. Roosevelt gained a surprising and overwhelming victory, getting 56 out of the 58 delegates from that State to the Convention. Later he repeated his success at the Pennsylvania primaries at the elections held Saturday, April 13. With the 12 delegates at large it was figured that he would get 69 out of the 76 Pennsylvania delegates. The contest between Mr. Taft and Mr. Roosevelt took on a very acrimonious turn. Mr. Roosevelt got more and more reckless in his abuse and misrepresentation of Mr. Taft. In speaking in Philadelphia April 10 he had the hardihood to say that "Mr. Taft, Mr. Choate, Mr. Milburn, Mr. Lorimer, Mr. Penrose, Mr. Guggenheim, and their allies," would turn the Government aside from its original purpose and that it was their "wish to make it a Government by corporation attorneys."

Mr. Taft, after long maintaining silence, was finally led to retaliate, and made sharp retort showing that Mr. Roosevelt was engaged in a campaign of misrepresentation. He made public correspondence going to show that Mr. Roosevelt was aware that President Taft had over a year ago taken a stand against Senator Lorimer, though he (Mr. Roosevelt) was now endeavoring to associate the Taft name in an unfavorable way with Senator Lorimer. Mr. Taft, furthermore, demonstrated that Mr. Roosevelt had originally commended Mr. Taft for his action regarding the reciprocity agreement with Canada, though he was now posing as a friend of the farmer and seeking to turn to his advantage the feeling of dissatisfaction aroused among agricultural interests because the reciprocity agreement would have admitted Canadian wheat and other products from Canada free of duty into the United States. Both Mr. Taft and Mr. Roosevelt made a hot personal canvass for the delegates to be chosen at the primaries in Massachusetts, they both engaging in extended speech-making tours. The primaries were held April 30 and here, too, Mr. Roosevelt showed greater strength than looked for, the delegation being apparently evenly divided between the two candidates. As, however, he had won the 8 delegates-at-large by a technicality, he yielded these to Mr. Taft, making the delegation stand 10 for Roosevelt and 26 for Mr. Taft.

Agricultural developments during the month were not altogether encouraging. In the West the weather conditions were unfavorable to winter wheat, while in the South the overflow of the Mississippi and generally wet weather retarded cotton-planting. The winter-wheat report of the Agricultural Bureau at Washington made the average condition of the crop for the whole country on April 1 1912 only 80.6, the lowest at that date since 1904. With further unfavorable weather during April a big speculation in all kinds of grain sprang up. At Chicago the May option for wheat rose from $1.01 April 1 to $1.16¾ April 29, with the close April 30 $1.14⅞. The May option for corn at Chicago rose from 74½ cts. April 1 to 81⅛ cts. April 29, with the close April 30 80⅛ cts. The May option for oats rose from 54⅜ cts. April 1 to 59 cts. April 20, with the close April 30 56¾ cts.

In the matter of the several great labor controversies the month's developments put them all on the way to a peaceable outcome. In the case of the demands of the Locomotive Engineers employed by the railroads in the territory between Chicago and the Seaboard north of the Ohio River, the situation at one time assumed a very threatening aspect. The managers of these roads having on March 25 notified the Brotherhood of Locomotive Engineers that it would be impossible to grant the request for an average increase in wages of 18⅝% and for other concessions, a referendum vote of the engineers was taken to determine whether or not there should be a strike in the event that the roads maintained their attitude. On April 12 the Chief of the Brotherhood notified the managers of the roads that 93.3% of the engineers had voted in favor of supporting the action of the Brotherhood Committee. The Brotherhood insisted on a prompt answer and threatened that unless their demands were met the engineers would be called upon to quit the service of the roads. Finally, however, after the representatives of the managers had made it evident that the full committee of the managers could not be called together immediately, the date for the ultimatum to go into effect was postponed until Monday, April 22. It was stated, however, that a strike would then be called within 36 hours unless the demands of the men were acceded to. At this point the two Government mediators, acting under the Erdman Law, namely Presiding Judge Knapp of the Court of Commerce, and U. S. Labor Commissioner Charles P. Neill, intervened, stretching their authority for the purpose, and got the Chief of the Brotherhood to consent to further delay pending an effort on the part of these Government officials to bring the two parties together. This effort proved successful. On April 30 an agreement was signed, both by the committee of railroad managers and the committee of the Brotherhood, submitting all the requests for decision to a court of arbitration to be composed of 7 members. Each of the two parties is to name one member and the two thus selected are to endeavor in good faith to agree upon the remaining members of the court. But in case they fail to agree upon all or any of such other members within fifteen days after their first meeting for that purpose then the remaining members are to be appointed by the Chief Justice of the United States, the presiding Judge of the Commerce Court and the U. S. Commissioner of Labor, acting together.

In the mining regions, the disputes between the mine workers and the mine owners were also put in the way of a settlement. In the case of the anthracite miners a basis of agreement was reached the latter part of the month between the sub-committees who had been carrying on negotiations and a meeting of the general committee of operators and miners was called for May 2 to ratify the terms of the arrangement. In the meantime, of course, mining in the anthracite regions remained suspended. In the bituminous regions the miners at a referendum vote ratified the agreement reached on March 29, under which instead of an advance o 10 cts. per ton, as demanded by the miners, there is to be an advance of 5 cts. a ton for mining lump coal, of 3 cts. a ton for mining all other coal and an increase of 5.26% for men paid by the day. The new wage agreement was not, however, actually signed until well along in the month, and accordingly mining in Ohio, in Western Pennsylvania, in Indiana, Illinois, Iowa, Kentucky, Oklahoma, Kansas, Missouri and a portion of the Kanawha District of West Virginia was suspended the greater part of the month.

The foreign exchange market was more or less irregular, but with a tendency towards weakness most of the time. In the early part of the month this weakness was due largely to the sharp advance in call-loan

rates at this centre. A period of recovery then ensued, influenced largely by selling of American securities on European account. The latter part of the month there was renewed weakness, due chiefly to expectations that foreign subscriptions for the new $65,000,000 issue of New York City bonds to be offered May 7 would be very large.

The stock market gave little heed to unfavorable conditions. Prices were held firm as a rule, and in many special cases sharply advanced, notwithstanding unfavorable crop developments and the progress of Mr. Roosevelt's campaign of radicalism. The market at times displayed hesitancy, but a powerful bull clique kept manipulating prices in an upward direction and took care not to permit any important or general recessions in quotations. Whenever the leading stocks began to develop a lagging tendency new specialities were brought forward and rapidly whirled upward. During the week of the "Titanic" disaster speculation was in great measure suspended, all vim and spirit being gone for the time being, but the latter part of the month the upward movement was resumed.

In the money market call-loan rates advanced to 5% at the beginning of the month on account of the demands incidental to the first of April payments and the low state of the reserves of the Clearing-House institutions. Thereafter, however, reserves gradually improved from week to week, and money rates dropped back again.

CONDITION OF THE TRUST COMPANIES OF NEW YORK STATE.

We present below comparative statements showing the condition of the trust companies of New York State at the date of the last call and of various previous calls since August 1907. We give separately the totals for the Greater New York and those for the whole State. We also add tables to indicate the changes in deposits for all the separate companies in the different boroughs of this city.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1912. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. All quotations in the column headed "*Price about January 2 1912*" were made on that date, except those in italics, which are the nearest in January 1912. The black-faced letters in the column headed "*Interest Period*" indicate in each case the month when the bonds mature.

In accordance with the new rule adopted by the New York Stock Exchange, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2 1909.

☞*For foot-notes to tables see last page of bonds and last page of stocks.*

GENERAL QUOTATIONS
OF
BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue.* As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method, and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "*f*" is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

3. The letter "*f*" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

4. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are now "and interest" except where marked "f" and income and defaulted bonds.

STREET AND ELECTRIC RAILWAYS

In quoting street and electric railway bonds, we employ the same method as in quoting the bonds of steam railroads. The great majority of issues being quoted "and interest," we use no designating mark whatever where that is the case. On the other hand, we prefix the letter *"f"* where there is a deviation from this rule; in such cases the interest forms part of the price. Unless, therefore, *"f"* appears against a quotation, the buyer will understand that the accrued interest is to be added on. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where marked "f," and income and defaulted bonds.

d Price per share, not per cent. *k* Last sale. *n* Nominal. *s* Sale price. *t* Stamped stock. *x* Ex-dividend. *y* Ex-rights.

MISCELLANEOUS SECURITIES.

Quotations marked "*f*" indicate that accrued interest is included in the price. Prices not marked are "and interest"; that is, purchaser has to pay accrued interest in addition to the price. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where marked "f" and income and defaulted bonds.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*f*).

The figures in the column *"to net"* indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

Bonds	Bid.	Ask.	To Net.

f Flat price. *b* Basis. Stamped 2½% until Dec. 1 1906. *n* Nominal.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the *closing day of the month preceding the date of issue*, though often are nominal. An asterisk (*) denotes sales. The letter (*h*) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

Where Names are Printed in Italics Fuller Returns may be Found in the Advertising Columns

ACCOUNTS SOLICITED

The First National Bank of Chicago

Invites the Accounts of Banks and Bankers

The record of forty-eight years' consistent, conservative banking; the increase of capital and surplus to $20,000,000 and the growth of deposits to over $123,000,000, together with the service and facilities afforded, make this invitation worthy of careful consideration.

JAMES B. FORGAN, President

Division F Banks and Bankers

FRONT, PINE AND DEPEYSTER STS., NEW YORK

REVIEW OF MAY.

Though a number of happenings of a favorable nature occurred, developments during May were not altogether encouraging. The political situation, particularly, became more and more unsatisfactory, so that it began to have somewhat of a dampening influence on trade, a marked tendency being in evidence to restrict new commitments. The contest for the Republican Presidential nomination between Mr. Taft and Mr. Roosevelt increased in intensity and bitterness, and at the primary elections for the selection of delegates to the National Republican Convention on June 18 Mr. Roosevelt added to his successes of the previous month. Notwithstanding the interest and anxiety occasioned by this spectacular contest—President Taft engaging in an extensive speech-making tour the same as Mr. Roosevelt—only a part of the total vote was brought out at these primary elections. But Mr. Roosevelt achieved triumphs nearly everywhere, while Mr. Taft came out victorious scarcely anywhere.

Early in the month a strenuous fight between the two men was carried on for the delegates from Maryland, and Mr. Roosevelt succeeded in getting the whole delegation of 16. In Ohio, Mr. Taft's own State, where the result was expected to be decisive of the chances of the two men, Mr. Roosevelt managed to capture 34 of the district delegates, while Mr. Taft got only 8. Who would get the delegates at large from that State was in doubt until the holding of the State Convention in June, when Mr. Taft was found to have a majority of the members, and accordingly captured the 6 delegates. The New Jersey primaries were held May 28 and here Mr. Roosevelt swept the State, getting all of the 28 New Jersey delegates to the National Convention. Indications, therefore, at the close of the month appeared to be that Mr. Roosevelt would obtain the Republican nomination in June, though Mr. Taft and his managers still contended that a majority of the delegates had either been directly instructed for him or were committed to the Taft candidacy.

In their speech-making the two candidates became more and more personal in reference and allusions, and a feeling of disgust over the spectacle grew up among the thinking class of the population. Under these circumstances suggestions that the best solution might be to drop both candidates and take up a compromise candidate who might prove acceptable to the general masses of Republicans naturally found wide favor. But as victory after victory came to him, Mr. Roosevelt became more and more arrogant. At the very outset of his campaign he had rejected the idea of a

compromise," and he now took occasion to repeat and emphasize his previous declarations to that effect. Speaking on Monday night (May 20) on the eve of the next day's primaries in Ohio, he boasted that he would be victorious, and then disposed of the suggestion of a compromise as follows: "I'll name the compromise candidate. He'll be me. I'll name the compromise platform. It will be our platform." Mr. Taft on his part was very frank and free in his expressions regarding Mr. Roosevelt. Speaking on the very day of the delivery of the Roosevelt ultimatum concerning a compromise candidate, Mr. Taft likened the former President to Louis XIV., King of France, when that monarch made the famous declaration: "The State, I am it. I am the State."

Another development of the month which seemed to be not altogther free from a political tinge was the bringing of a suit by the Department of Justice at Washington under the Sherman Anti-Trust Law against the agents of the Coffee Valorization plan, which had been inaugurated in 1906 under the auspices of the Brazilian Government. The action was initiated by U. S. District Attorney Wise on May 18 and he secured a temporary injunction from Judge Hand in the U. S. District Court of New York restraining the New York Dock Co., Herman Sielcken, et al, from disposing of 950,000 bags of coffee stored in the Dock Company's warehouses in Brooklyn pending the issuance of the final decree. The motion for this restraining order, to prevent the sale of the valorization coffee stored in the Dock Company's warehouses, was subsequently denied by Judges Lacombe, Coxe, Noyes and Ward of the U. S. Circuit Court of Appeals in this city.

In bringing this suit it was the contention of the Government that the syndicate had been holding off of the American market great amounts of coffee bought from Brazilian producers and that the price of coffee, as a result, had been advanced from 7½ cts. to 15 cts. The bill of complaint made reference to the $75,000,000 loan negotiated by the Brazilian State of Sao Paulo (and subsequently guaranteed by Brazil itself) through American and European bankers, with the view to carrying on the forestalling operations, and recited that with the moneys thus received coffee to the total amount of 10,868,266 bags had been purchased. It was also pointed out that sales out of these stocks of coffee were only made in limited amount from year to year and that "the real intent and purpose of the valorization scheme was, through a restraint of the commerce in coffee between Brazil and other countries, including the United States, by monopolizing the same, to increase the price thereof to the enrichment of those instigating the scheme."

It was feared that the friendly relations between the United States and Brazil might be disturbed by this litigation, inasmuch as it was a move against a plan inaugurated by the Brazilian Government. That the action was not viewed with favor in South America was made quickly apparent, for at a banquet given in this city on May 27 by the newly established Pan-American Society of the United States, Ambassador da Gama of Brazil, voiced a strong protest and suggested that the course adopted by our Government in this instance was not calculated to improve the relations between the United States and South American countries. He referred to the "somewhat arbitrary and quite revolutionary doctrine of paying for other people's merchandise, not the price they ask for it, but the price the United States—I mean the American merchants—want to pay for it. It is a brand new doctrine and the United States seem disposed to enforce it even to the sacrifice of long-standing international friendship."

In labor matters, at least one very important controversy was definitely settled. We refer to the demands of the miners in the anthracite coal fields. On May 2nd the full committee of the miners had declined to accept the tentative plan of settlement which had been devised and agreed upon by the sub-committees of the miners and operators. Later, however, the representatives of the miners decided to call a convention to meet in Wilkes-Barre, Pa., on May 14 and let the miners themselves pass on the proposed plan. While the proposition was under discussion in the mining regions, more or less rioting occurred at various points, but on Saturday, May 18, the miners' convention, by a vote of 323 to 64, decided to accept the terms contained in the proposal of the sub-committee, and the miners returned to work on May 22 after having been idle since the previous 1st of April. A strong feature of the agreement is that it is for four years and will not end until March 31 1916. The miners get an increase of 10% in wages but the sliding scale is to be abolished (under which the miners got certain additions over the fixed basis of wages, dependent upon the price of coal) and it was hence figured that the real increase in the pay of the miners would be between 5 and 6%. One effect of the advance was that the anthracite coal companies in their new circular of prices announced an increase of 25 cts. a ton in the prepared sizes of coal. No advance was made in the prices of the so-called steam sizes, namely buckwheat, rice and barley, since these sizes encounter competition from bituminous coal.

The crop situation early in the month did not appear very encouraging. The report of the Department of Agriculture for May 1 (issued May 7) indicated that much damage had been done to the growing winter-wheat crop. As a result of winter-killing an abandonment of wheat area the greatest in the history of the country was reported. In some important localities the amount given up approximated half of the acreage originally planted. Altogether 6,469,000 acres, or 20% of the area seeded the previous fall, was found useless. Furthermore, the condition of the crop May 1 was given as only 79.7, or the lowest of any corresponding date since 1904. Early in the month the price of wheat sharply advanced, the July option at Chicago rising from $1 09¾ May 2 to $1 15 May 6, but after the appearance of the Government report prices declined; the downward movement was helped by a decided improvement in weather conditions, and on May 20 the price was $1 06. The latter part of the month on reports of hot dry winds in Kansas and Nebraska a renewed rise occurred, and May 27 the July option at Chicago sold at $1 12⅛. The close May 31 was at $1 10.

The stock market showed more or less weakness throughout May. At the beginning of the month the shares of United States Steel Corporation broke sharply on account of the unfavorable statement of earnings of the company for the March quarter made public after the close of business April 30. There were also other developments that did not wear an encouraging look. The overflow of the Mississippi was at this time becoming steadily worse, while it was known that both the winter-wheat crop and the cotton crop were encountering serious adverse conditions. Then, also, the prospect of peace in the anthracite regions did not at that date appear assuring, inasmuch as the report of the sub-committees had been rejected by the full miners' committee and it now remained for the miners themselves to decide whether they would accept the proposal—which they did later in the month. The contest between Mr. Roosevelt and Mr. Talt was not viewed with satisfaction and yet did not appear to have any great amount of influence on stock speculation. Nevertheless, some weakness was noted after each decided triumph by Mr. Roosevelt in any State of import nce. This was particularly true after the result of the primary elections in New Jersey on May 28. The next day (May 29) and also on May 31 (May 30 having been Memorial Day and a holiday) there appeared to be extensive liquidation with severe breaks in

prices. The copper stocks, while yielding more or less to the general trend, displayed on the whole great strength, the reason being the strong statistical position of the metal and the further advance in the price of the same—copper touching 17 cents.

The foreign exchange market was strong most of the month. At the beginning there was strength, owing to bidding for funds in this market on German account and also because the Bank of England did not reduce its discount rate on the 2nd as expected. The reduction came the following week (May 9) and brought a downward reaction in exchange, but this was only temporary. On May 17 the Bank of France also reduced from 3½ to 3%. Open market discounts in London, however, soon developed great strength, being quoted indeed towards the close of the month slightly above the Bank rate of 3%, while in Germany considerable tension developed. At the same time German borrowing here continued and the tourists' season was in full swing, requiring active remittances. As a result rates for exchange May 31 were at or near the highest figures of the month.

In the money market there was continued ease. The closing of subscriptions for the New York City loan released some funds that had previously been tied up, while the demand for new committments on mercantile account was slight and the call for money for Stock Exchange speculation was restricted.

CONDITION OF THE TRUST COMPANIES OF NEW YORK STATE.

We present below comparative statements showing the condition of the trust companies of New York State at the date of the last call and of various previous calls since August 1907. We give separately the totals for the Greater New York and those for the whole State. We also add tables to indicate the changes in deposits for all the separate companies in the different boroughs of this city.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1912. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. All quotations in the column headed "*Price about January* 2 1912" were made on that date, except those in italics, which are the nearest in January 1912. The black-faced letters in the column headed "*Interest Period*" indicate in each case the month when the bonds mature.

In accordance with the new rule adopted by the New York Stock Exchange, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2 1909.

☞*For foot-notes to tables see last page of bonds and last page of stocks.*

GENERAL QUOTATIONS
OF
BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue.* As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method, and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "*f*" is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

3. The letter "*f*" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

4. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional

7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are now "and interest" except where marked "f" and income and defaulted bonds.

STREET AND ELECTRIC RAILWAYS

In quoting street and electric railway bonds, we employ the same method as in quoting the bonds of steam railroads. The great majority of issues being quoted "and interest," we use no designating mark whatever where that is the case. On the other hand, we prefix the letter *"f"* where there is a deviation from this rule; in such cases the interest forms part of the price. Unless, therefore, *"f"* appears against a quotation, the buyer will understand that the accrued interest is to be added on. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where marked "f," and income and defaulted bonds.

t Price per share, not per cent. *k* Last sale. *n* Nominal. *s* Sale price. *t* Stamped stock. *x* Ex-dividend. *y* Ex-rights.

MISCELLANEOUS SECURITIES.

Quotations marked "*f*" indicate that accrued interest is included in the price. Prices not marked are "and interest" that is, purchaser has to pay accrued interest in addition to the price. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where marked "f" and income and defaulted bonds.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*f*).

The figures in the column *"to net"* indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

Bonds	Bid.	Ask.	To Net.

f Flat price. *b* Basis. **Stamped 2½% until Dec. 1 1906.** *n* Nominal.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the *closing day of the month preceding the date of issue*, though often are nominal. An asterisk (*) denotes sales. The letter (*h*) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

Where Names are Printed in Italics Fuller Returns may be Found in the Advertising Columns

RAILWAY EARNINGS

SECTION OF THE

COMMERCIAL & FINANCIAL CHRONICLE

Copyrighted in 1912 according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

VOL. 94. NEW YORK, JANUARY 20, 1912 NO. 2430.

THIS entire publication is devoted to a presentation of the reports of earnings and expenses of United States railroads for the latest month (November) and for the fiscal year to date, including said month. The table embraces every steam *operating* railroad in the country which is obliged to make monthly reports to the Inter-State Commerce Commission at Washington—about 900 roads or systems altogether—comprising, roughly, 240,000 miles of road. Whether a road earns $1,000 a month or $10,000,000, it will be found in the list. Leased lines not operating their own road do not make returns.

Sworn Returns. The figures are a transcript of the sworn returns on file at Washington. They have the further advantage of uniformity of method and classification. Every company is obliged to make up its return on the same basis and in the same way as every other company.

Earnings Our Specialty The "Chronicle" has always made a specialty of weekly and monthly reports of railroad earnings, and for forty years or more its weekly and monthly summaries have been everywhere accepted as authoritative. The present publication is in continuation of this work and to aid the Inter-State Commerce Commission in the one direction in which lies its chief usefulness—the field of publicity. By our own unaided efforts we succeeded in collecting returns covering 200,000 to 205,000 miles, out of a possible 225,000 to 235,000 miles. The action of the Commerce Commission enables us to give the remaining mileage, all except that inconsequential portion the operations of which are confined wholly within State boundaries.

Full Details. These Inter-State Commerce returns also make it possible for us to take one further step in advance, namely to present the details of both the revenues and the expenses. Besides reporting total gross earnings, we show separately the passenger and the freight revenues. In the case of the expenditures we report the outlays for both maintenance of way and maintenance of equipment as well as the traffic and transportation expenses. We also show the revenue from outside operations, gross as well as net. Lastly, we give the miles of road on which earnings are based. To get in all these facts, we have had to extend the figures for each road across two pages.

Cents Discarded. The cents we have necessarily been obliged to discard altogether, and if in any case the results should happen to vary a dollar, one way or the other, from exact proof, the reason for the variance will be found in that circumstance.

Former Returns to be Continued. The matter contained in this extra and novel publication is entirely additional to the comprehensive reports of earnings we have been furnishing in the "Chronicle" from week to week. Large numbers of companies have long supplied monthly statements of their own. Some of these differ in essential respects from the returns required by the Inter-State Commerce Commission. These statements we will print in the future as in the past just as received, and in the week in which they appear. We shall also continue our weekly figures of earnings. But in addition to all this we shall issue once a month—say about the 20th—this special publication devoted entirely to the Inter-State Commerce returns and confined exclusively to them.

Only For Subscribers. As in the case of our numerous other Supplements or "Sections," all of which are expensive publications, the "Railway Earnings Section" will be furnished only to "Chronicle" subscribers. These will receive it free of charge, one copy going with each subscription. It will be impossible to obtain copies in any other way, as none will be printed for general sale.
